CERTIFICATION OF EVALUATION
for
RANDOM NUMBER GENERATOR (RNG) & ARCADE GAMES
(Selective component evaluation)

Random number generator

Tombola Gaming System uses random number generator (RNG) to generate results for their Arcade games being offered to the players. Gaming Associates (**ga**) has evaluated the RNG, scaling, mapping algorithms, and the Arcade games against technical standards for the jurisdictions of the United Kingdom.

The evaluation has been performed through source code review, functionality testing, emulation, verification of mathematical treatise, and statistical analysis. The following games have been evaluated.

1. Scratch
2. Spin
3. Flip
4. Pick
5. Emoji

ga is of the opinion that the RNG and the above Arcade games comply with, or exceed generally accepted practice.

Disclaimer

Gaming Associates has conducted a level of evaluation, which has historically been adequate for a limited component evaluation of this type. However, inherent in testing in laboratory environment is the unavoidable limitation of it not being possible to verify the effects of all possible configurations that occur at the actual site.
